ABSTRACT

The annotated bibliography of over 150 commercially available career education materials for educable retarded (EMR) students is the second in a series of working papers from Project PRICE (Programming Retarded in Career Education). Entries are grouped under 22 competencies considered essential for community adjustment, which fall under three primary curriculum areas: daily living skills (such as managing family finances), personal-social skills (such as communicating appropriately with others), and occupational guidance and preparation (such as exhibiting necessary work habits). For each competency, the materials have been divided into three age levels: elementary, junior high, and senior high. Provided for each entry is a brief descriptive (not evaluative) annotation (including suggested uses, populations, and estimated reading level), the cost (if available), and the publisher's name. A complete list of publishers and their addresses is included in the last section. Also listed are career education publications (grouped under general EMR and handicapped), relevant journals, and two sources of more information. An epilogue describes future Project PRICE activities and papers. (LS)

December 1974

Department of Counseling and Personnel Services
College of Education
University of Missouri-Columbia
Columbia, Missouri 65201

The University of Missouri is an Equal Employment and Educational Opportunity Institution

This Project is supported by Grant No. OEG-0-74-2789, U.S. Office of Education, Department of Health, Education, and Welfare. However, the opinions expressed herein do not necessarily reflect the position or policy of the U.S. Office of Education, and no official endorsement by the U.S. Office of Education should be inferred.

William Hillman, Project Officer
Bureau of Education for the Handicapped
Washington, D. C.

P R E F A C E

The University of Missouri-Columbia is currently under contract with the U.S. Office of Education's Bureau of Education for the Handicapped to develop an inservice model to educate personnel to provide more relevant instruction and supportive services to educable mentally retarded students within a Career Education context.

Labeled "Project PRICE" (Programming Retarded In Career Education), there are three major goals:

(1) To develop an inservice/staff development model to educate regular and special education personnel to provide effective Career Education services to EMR students in K-12 programs;

(2) To identify and develop appropriate types of techniques, materials, and experiences so that school personnel can work more effectively with EMR students in a Career Education context; and

(3) To complete and disseminate the resulting inservice/staff development training program so that it can be utilized throughout the country by school systems desiring to adopt the Career Education approach.

Six Mid-western public school systems are participating in the project to obtain practitioner's input and to provide the opportunity to field test the Project's model, techniques, and materials.

Project PRICE does not necessarily advocate the mainstreaming of all educable retarded students. Rather, it attempts to delineate how certain retarded students can be integrated and taught career education competencies when such integration will be beneficial to the student and school personnel. Until the efficacy of total mainstreaming is truly substantiated, our support of this thrust remains guarded but hopeful that enough appropriate integration can occur so retarded students become accepted and taught as any member of the human race.

This is the second of several working papers to be written and disseminated to professional workers interested in re-directing services and infusing change into educational programs for educable mentally retarded students.

In Working Paper #1, we outlined 22 competencies which we feel are most important for these students to acquire before leaving the educational system. Each was classified under one of three primary curriculum areas: (1) Daily Living Skills, (2) Personal-Social Skills, and (3) Occupational Guidance and Preparation.

This working paper is designed for use by school personnel desiring resource materials for helping the students acquire the recommended competencies. It has been compiled by three Project PRICE staff who have reviewed commercial materials from various sources. Sara McIntosh wrote the section on Daily Living Skills materials; LaNelle Tuoti wrote the section on Personal-Social Skills materials; and Greg Brown wrote the section on Occupational Guidance and Preparation. We are indebted to Carolyn Klug who compiled the section on career education resources.

The list of materials and resources presented in this publication does not represent the entire array of available literature for each competency. It is a representative sample of materials we have found and feel can be useful to school personnel.

We welcome any comments and suggestions from readers of this document who are interested in assisting our efforts to devise ways school personnel can participate and work more effectively with EMR students in Career Education programming. Let us hear from you.

INTRODUCTION

This bibliography is intended for use by teachers who are working to insure that educable mentally retarded students acquire those competencies which are most essential for a satisfactory community adjustment. These competencies, organized in 3 domains, are:

Daily Living Skills

1. Managing Family Finances
2. Caring and repairing Home Furnishing and Equipment
3. Taking Care of One's Personal Needs
4. Raising Children and Family Living
5. Buying, planning, and Preparing Food
6. Selecting, Buying, and Making Clothing
7. Engaging in Civic Activities
8. Utilizing Recreation and Leisure Time
9. Getting Around the Community (Mobility)

Personal-Social Skills

10. Attaining a Sufficient Understanding of One's Own Self (Self-Awareness and Appraisal)
11. Obtaining a Positive Self-Confidence, Self-Concept
12. Desiring and Achieving Socially Responsive Behavior
13. Choosing, Developing, and Maintaining Appropriate Interpersonal Relationships
14. Achieving Independent Functioning
15. Making Good Decisions, Problem-Solving
16. Communicating Appropriately With Others

Occupational Guidance and Preparation

17. Knowing About and Exploring Occupational Possibilities (Occupational Awareness and Exploration)
18. Selecting and Planning Appropriate Occupational Choice(s)
19. Exhibiting the Necessary Work Habits Required in the Competitive Labor Market (Work Behaviors)
20. Developing the Necessary Manual Skills and Physical Tolerances Required in the Competitive Labor Market (Physical-Manual Skills)
21. Obtaining a Specific and Saleable Entry Level Occupational Skill
22. Seeking, Securing, and Maintaining Jobs Appropriate to Level of Abilities, Interests, and Needs (Job Adjustment)

For further elaboration on these competencies, see Project PRICE Working Paper #1.

It will be obvious to the reader that we have omitted any reference to academic skills such as reading, writing and spelling, and computational skills. We felt that it would have been redundant for us to reiterate these. In this paper we have focused only on those competencies deemed essential for the EMR student's life career development. At the same time we are cognizant of the fact that other competencies may be useful to the EMR student, especially the basic academic tool skills which are prerequisite to and implied within many of our 22 competencies.

We have selected examples of commercially available materials which may be helpful for teaching each of these competencies. For each competency, the materials have been divided into three age levels - elementary, junior high and senior high. These age level designations are only suggestive, many of the materials would be appropriate for a broader age range of students.

In organizing this bibliography we have attempted to suggest the single most appropriate competency for each piece of instructional material, but clearly many would contribute to more than one of our 22 competencies. For some materials, we found it impossible to do this; they simply could not be narrowed down to a single competency. Therefore, for the domains Personal-Social Skills and Occupational Guidance and Preparation, a few materials have been listed under "all" rather than under a specific competency. The "all" refers to all the competencies in that domain.

For each material selected we have attempted to provide a brief annotation, including suggested uses, populations, and estimated reading level, where available. It is important to note that these annotations are descriptive and not evaluative. For the most part, these annotations were derived from publishers information. Even where we did have an opportunity to see the material we only attempted to describe it--we could not have evaluated each item. An asterisk next to an item indicates that it was suggested for use with educable retarded students.

Finally, for each item included in the bibliography we have noted the cost, if available, and the publisher. A complete list of publishers and their addresses is included at the back of the document.

II.

DAILY LIVING SKILLS

Family Finances

Comp.	Level	Description	Publisher
1	E1	Going Places and Spending Money. An activity-oriented duplicating master book. Involves moving nickels, dimes, pennies, and quarters, matching coins to names and coins to their value. Also introduces the half-dollar and dollar. Includes approximately 20 perforated masters, statement of purpose, objectives and suggestions for use. #2070, $3.95.	Instructo Corp.
		*Teacher's Flannel Board Money Kit. A kit for learning about money. Contains a large assortment of cutouts of coins, bills, numeral signs, things to buy, and coin names. Also includes a bank. PEC 1025A, $5.60.	J.A. Preston Corp.
		DLM's Money Game. The student learns the identification of coins and the relationship of these coins to amounts of money. Game consists of a 15" x 12" playing board on which is printed a "trail" of 24 various amounts of money, as well as some special spaces for advance and retreat purposes. The student draws a card showing the picture of a coin and moves one of the colored markers to the nearest space containing the amount equivalent to the coin card he has drawn. The winner is the first player who makes it all the way to the bank. Enclosed with the game is a separate coin clue board which shows photos, names and amounts of each coin. #272, $4.50.	Developmental Learning Materials
		Money Makes Sense. A text-workbook that teaches the principles of arithmetic through the use of money while the child is learning to add and subtract. Everyday problems built around the use of United States coins (reproduced in actual size) and paper money are designed to hold the student's interest and encourage him to learn. Some of the subjects included are: recognizing coins, relative value of coins, and figuring change correctly. Reading level: 2.8. $2.00.	Fearon Publishers
		Money. A filmstrip, cassette and transparency unit designed to convey the story of the development of	

Family Finances

Comp.	Level	Description	Publisher
1	El	money and how money should be handled. Filmstrip and cassette titles are, "How Money is Used," and "How to Handle Money." Transparency titles are "Using Money," "Taking Care of Your Money," and "How Much?" Designed for K-3. Set #PG-87, $33.90.	Educational Projections Corp.
	Jr High	Money Handling. This program is designed to give the student an awareness of money, change, and the way to make change. It is a basic program to help develop the money handling skills of the student. The program consists of 1 full color filmstrip, 1 recorded cassette, and 1 teacher's manual. $14.95.	Interpretive Education Division of Ill., Envelope Co.
		Money Makes Sense. A text-workbook that teaches the principles of arithmetic through the use of money-thereby giving the student a practical grasp of the value and use of money while he is learning to add and subtract. Everyday problems built around the use of United States coins (reproduced in actual size) and paper money are designed to hold the student's interest and encourage him to learn. Some of the subjects included are: recognizing coins, relative value of coins, and figuring change correctly. Reading level: 2.8. $2.00.	Fearon Publishers
		Taxes, Saving Your Money, and Making a Budget. Three filmstrips designed to convey an insight into banking, saving, and taxes. Titles include "Taxes" (#R-345), "Saving Your Money" (#R-347), and "Making a Budget" (#R-348). Reading level: Primary and Intermediate. $6.00 each.	Educational Projections Corporation
		Shopping Lists Game. This game is designed to give the student first-hand experience in adding and subtracting money through the use of coins and bills. He also learns the counting and making of change as well as some of the intricacies of selecting, budgeting, and paying for desired merchandise. In addition to knowledge of money, the Shopping List Game promotes the acquisition of alphabetizing skills and skills in language, reading, and association. Instructions for playing the game and suggestions for supplemental activities are included. #321, $6.75.	Developmental Learning Materials
		Exact Change Game. A game with replicas of U.S. coins that teaches children money recognition, counting, and making change. Three levels of difficulty.	Math Shop

Family Finances

Comp. Level	Description	Publisher
Jr High	Available in an individual kit, and a classroom kit consisting of two complete sets and a set of large demonstration coins. #81007 Individual Kit, $6.95, #81008 Classroom Kit, $12.50.	
	Coin Puzzles. Designed as an independent, individual study device for learning money; they may also be used as a high-interest matching game by small groups. These self-correcting puzzles picture coins of five different values and money combinations ranging from 1¢ to $2.00. The puzzles consist of 25 double-sided cards (3" x 4 3/4"), each jig-cut into two pieces which are to be fitted together exactly in order to complete the puzzle. The top part of each puzzle has a picture of an array of coins, and the interlocking bottom piece bears the printed money value of this array. The series, graduated as to difficulty and self-correcting due to the different cut for each card, is printed in color on heavy board and boxed with instructions. #340, $4.75.	Developmental Learning Materials
	*Banking Series. A program designed to meet the needs of special students entering the world of work. The Banking Series is a low vocabulary, high interest program exploring bank functions as applied to practical implementation. It is a sequential program, reinforcing the student by use of visuals; audio, and workbooks. Contents include how to open a savings account, how to withdraw money, filling out and using checks, and using bank forms and services. 5 full color filmstrips, 5 audio cassette slides, 20 student workbooks, 1 teacher's manual, $119.00; Individual Workbooks @$2.25.	Interpretive Education
	*Budgeting Series. The student explores why it is wise to budget, how to go about budgeting, and what a budget, as a tool, can do for him personally. The budgeting series is a multi-media program which has built-in repetition, presented in high interest, low vocabulary fashion. Student workbooks follow the programmed filmstrips with various activities expected of the student, such as using motor skills, following directions, and arithmetic and study quizzes. 5 full color filmstrips, 5 audio cassette slides, 20 student workbooks, 1 teacher's manual $119.00; Individual workbooks @$2.25.	Interpretive Education

Family Finances

Comp	Level	Description	Publisher
1	Sr Hi	*Applying for Credit. Knowing the functions of credit and the responsibilities of a charge account are the concepts presented in this program. It shows how to apply for credit, how the responsibilities of credit apply to the individual, and the way to use credit wisely. 1 full color filmstrip, 1 recorded cassette, 1 teacher's manual, $14.95	Interpretive Education
		*Everyday Business. Workbook written specifically for the slow learning student or adult, with high-interest, low reading vocabulary level. This workbook includes five sections: "Banking," "Buying," "Budgeting," "Federal Income Tax," and "Insurance." True and False tests are included for each section. Ten or more copies @ $1.50, Single copy @ $1.75.	Lawson Book Company
		You and Your Money. The adult-oriented reading material and instructional exercises of this work-text provide information and practice in consumer buying and money management. Vocabulary is on the third or fourth-grade level. Teacher's Manual includes answer key.	Steck-Vaughn Company
		*Using Dollars and Sense. Some of the subjects include: buying groceries, buying at sales, figuring salary for a job, saving to buy a car, buying clothes, figuring a family budget, opening a savings account, paying personal and household bills, and keeping a checking account. Reading level: 3.6. $2.00.	Fearon Publishers
		*Getting Ready for Pay Day by Margaret W. Hudson and Ann A. Weaver. Set of three papercovered books. Book 1, "Checking Accounts," includes sections on How I Make My Money, What Is a Bank, Opening a Checking Account, Writing Checks, Keeping a Record, and Endorsing a Check. Book 2, "Savings Accounts," has information concerning Spending my Money, Opening a Savings Account, Making a Deposit, Taking Money out of My Account, Finding the Total of My Savings, and Letting My Money Work for Me. Book 3 "Planning Ahead," sections include Pay Day, My Budget, The Easy Way to Plan, Taking Care of My Needs, and Making Out a Budget. Book 1-#126-$1.00, Book 2-#127-$1.00, Book 3-#128-$1.00.	Frank & Richards Publishing Co., Inc.

Home Care

Comp. level		Description	Publisher
1	Sr Hi	*The Using Money Series by John D. Wool. A series of four workbooks dealing with practical money concepts, skills, and management. Book 1 - "Counting My Money." Partial content: Recognition of Coins, Relative Value, Comparing and Writing Amounts of Money, Totaling Groups of Coins. Book 2 - "Making My Money Count." Partial content: Coin Problems, Making Change, Adding Your Purchases, Counting Change from Bills, Buying School Supplies, and Choose the Correct Change. Book 3 - "Buying Power." Partial content: Buying Food, Buying Household Goods, Buying Clothes, Comparing Prices, Figuring the Cost of Tools, and Your Allowance. Book 4 - "Earning, Spending and Saving." Partial content: Working Part-Time, Spending My Money, Your Wage Deductions, Saving Your Money, Planning Your Spending and Banking Services. Book 1 - #171, $1.35, Book 2 - #172, $1.35, Book 3 - #173, $1.35, Book 4 - #174, $1.35.	Frank & Richards Publishing Co., Inc.
		The Taxes You Pay, by Ron Dittmer. An individualized study unit designed for EMR and Slow Learners.	1972 Project ISU Unipacs Occupational Training Center, Inc.
2	El	*Do It Yourself by D. Arnold, and K.L. Posey. A manual describing the use and care of simple tools and materials commonly found in the home, and some projects and activities involving the same. #187 Paper Cover, $1.35.	Frank & Richards Publishing Co., Inc.
		Career Education in an Elementary Environment. A "hands on" program in Career Education for grades K-6. Program includes the following categories: Furniture, Hand Tool Usage and Care; Heating and Cooling Systems; Home Repair; Electrical Glass, Masonry, Metallic, Painting, Wood; Plumbing; and Small Electrical Appliances. Each category has ten skill levels per grade, or a total of seventy skill levels during the child's seven years in the elementary school program. Approximately half of these skills are meant to be taught in the home by parents.	Career Education in an Elementary Environment, c/o Parkway School District
2	Jr Hi	*Do It Yourself by D. Arnold and K.L. Posey. A manual describing the use and care of simple tools and materials commonly found in the home, and some projects and activities involving the same. #187 Paper Cover, $1.35.	Frank & Richards Publishing Co., Inc.

Home Care

Comp. Level	Description	Publisher

	*For the Shock of Your Life: Electrical Cord and Plug Repair, by Mary Drenckhahn. Individualized study unit designed for EMR, Junior and Senior high School students.	1972 Project ISU Unipacs Occupational Training Center, Inc.
	What's In the Tool Box? A workshop book for understanding and learning to use tools in the classroom. $2.95 each.	Mafex Associates
2 Sr Hi	*For the Shock of Your Life: Electrical Cord and Plug Repair by Mary Dreckhahn. Individualized study unit designed for EMR Junior and Senior high school students.	1972 Project ISU Unipacs Occupational Training Center, Inc.
	Helpful Hints for the Home Repairman. Cassette designed for Junior and Senior High School students.	Classroom World Publishing c/o B and R Education, Inc.
	What's in the Tool Box? A workshop book for understanding and learning to use tools in the classroom. $2.95 each.	Mafex Associates
3 El	Health and Safety film lessons. Children face personal problems regarding health, safety and the responsibility for their own actions. This series of filmstrips is based around preventive actions and how others help us to keep safe and healthy. Each film lesson has a cassette tape and may be used for classroom instruction as well as for individually prescribed assignments or independent study. Titles include, "A Visit to the Doctor," "A Visit to the Dentist," "Let's Take Care of Ourselves," "School, Health and You," and "Spreading a Cold in School." Designed for K-3. FS R-135, Tape R-135T - A Visit to the Doctor, A Visit to the Dentist FS R-136, Tape R136T, Let's Take Care of Ourselves FS R-137, Tape R-137T, School,	Educational Projections Corp.

Personal Needs

Comp.	Level	Description	Publisher
3	E1	Health and You FS R-138, Tape R-138T, Spreading a Cold in School FS R-139, Tape R-139T. Tapes and Skill Sheets @ $7.95, Teacher's Manual @ $1.50, Spirit Masters for Tapes @ $1.50.	
		Mr. Ready Health - P.E. Readiness. This series provides a program of health and physical education exercises for young students. Each of 12 cassettes contains 2 15-minute lessons. The initial lesson on listening to and following directions is followed by activities and lessons on good health habits, manners, responsibility, safety, and food and nutrition. Sensory modalities are tested and developed with lessons on auditory, visual, tactile and spatial perception. The cassette-directed exercises include relaxing, sitting, standing, rhythm, marching, coordination, deep-breathing, and rainy day activities. #0004, $60.00.	Educational Projections Corp.
		Dental Health Stories by Jean Wood. A fantasy approach designed to spark young children's interest in the importance of taking care of their teeth. Vivid visuals and narrative explain why teeth decay, what filling does, why cleaning is important, the role of nutrition and other aspects of dental hygiene. Designed for grades K-3. FSR 423 - 2 full color filmstrips, 2 records, guide- $24.95; FSC 423 - 2 full color filmstrips, 2 cassettes, guide - $26.95.	Educational Activities Inc.
		Eye and Ear Care by Jean Wood. A whimsical storyline designed to impress young people with the importance of proper care of their ears and eyes. They are reminded of the unique nature of these organs and what they can do to protect them. Designed for grades 1-4. FSR 445 - 2 full color filmstrips, 2 records, guide - $24.95; FSC 445 - 2 full color filmstrips, 2 cassettes, guide-$26.95.	Educational Activities
		Nutrition for Little Children by Ann Edson. Program directed toward developing positive attitudes toward food, accepting a variety of foods, realizing that people eat in many different ways, and beginning to understand the relations of food to health and growth. Teacher's guide includes behavioral objectives, discussion techniques, and specific follow-up activities to reinforce the learning objectives. FSR 436 - full color filmstrip, record, guide -$12.95; FSC 436 - full color filmstrip, cassette, guide - $13.95.	Educational Activities

Personal Needs

Comp.	Level	Description	Publisher
3	El	Drugs, Poisons, and Little Children by Ann Edson, Arnold Lurie, and A.S. Harris, Jr. "Only Sick People Need Drugs." This program is designed to provide an introduction to the place of medicine and drugs in young children's lives. Poisons are brought in to reinforce the concept that to ingest, sniff, or taste an unknown substance can be deadly. The objective is to teach children at an early age that only sick people need drugs and that to take unknown substances may be harmful. Teacher's guide includes discussion techniques and ideas as well as follow-up activities to reinforce the concepts presented. Designed for grades K-3. FSR 418 - Full color filmstrip, record, guide - $12.95; FSC 418 full color filmstrip, cassette, guide - $13.95.	Educational Activities
		Health and Safety Highlights Kit. This kit of 12 full-color photo charts (18 1/2" x 15") focuses on: "Clothes and Weather," "Learning About the Body," "A Pretend House," "Crossing Streets Safely," "The Dentist," "Washing Hands," "Getting Weighed and Measured," "Learning About Foods," "Moving About Sleep," "The Doctor," "Covering Coughs," and "Sneezes." Teaching tips are printed on the reverse side of each chart plus a message for parents which may be duplicated and sent home with each child. Also included in the kit: a 10" LP record of sing-along health and safety songs, and a Teacher Resource Book. Designed for beginning elementary levels. #01899-7 70, $11.10.	Scott Foresman & Co.
		*Project MORE...Daily Living Skills Programs. "Toothbrushing." A complete and systematic approach to teaching the simple skill of toothbrushing, including the essential teaching strategy and student progress records. $5.00.	Edmark Associates
3	Jr Hi	Health Filmstrips. "We Learn About Our Body" (R-207) develops an analogy between human physiology and machinery. "We Need to Be Healthy" (R-217) and "We Do Our Exercises" (R-227) explain the healthful benefits of proper exercise and good eating habits. Grades 2-5. $6.00 each.	Educational Projections Corp.
		Nutrition for You by Arnold Lurie. This program is directed toward helping the student discover how food is related to health and growth, and to understand the criteria for selecting food. It also provides the opportunity for the student to develop a concept	Educational Activities, Inc.

Personal Needs

Comp.	Level	Description	Publisher
3	Jr Hi	of the food people throughout this country and the world eat as an integral part of their physical and socio-cultural environment. Grades 3-8. RSR-426 2 full color filmstrips, 2 records, guide - $24.95; FSC-426 2 full color filmstrips, 2 cassettes, guide - $26.95.	Educational Activities, Inc.
		Drugs and Children by Ann Edson. These filmstrips are closely correlated with leading national public school courses of study on the history, nature, and effects of drugs. Grades 4-8. FSR 412 - 2 color filmstrips, record, guide - $19.95; FSC 412 - 2 color filmstrips, cassette, guide - $20.95.	
		The Story of Human Life. No. 1. This program presents the story of human life, the life cycle. Children learn the way humans grow, their individual differences, the differences between boys and girls, the basic facts of reproduction, and how babies are born. The Teacher's Manual contains background information, pre- and post-viewing activities, questions, lesson unit plans, and bibliography. Grades 4-6. FSR 406 - Full color filmstrip, record, guide-$12.95; FSC 406 - Full color filmstrip, cassette, guide-$13.95.	Educational Activities
		*Project MORE...Daily Living Skills Programs. "Hair Rolling." A complete and systematic programmed course to guide the teacher in teaching an adolescent retarded girl to become self-sufficient in this vital grooming skill. Requires one 30 minute session per day over a four-to-six-week period.	Edmark Associates
		*Project ISU. Individualized study units designed for TMR and EMR students. Titles include "Menstrual Hygiene," "Appropriate Clothing," and "Cosmetic Skin Care." Buyer is requested to pay postage only.	1972 Project ISU Unipacs Occupational Training Center, Inc.
3	Sr Hi	Female Self-Care Series. A step-by-step program devoted entirely to the area of personal appearance and personal grooming. The titles of the filmstrips in this series are: "Hair Care," "Make-Up," "Better Dress," "Nail Care," and "Your Teeth." Full color filmstrips, 5 audio cassette slides, teacher's manual, @ $74.00.	Interpretive Education

Personal Needs

Comp.	Level	Description	Publisher
3	Sr Hi	*Male Self-Care Series. Designed to meet the needs of adolescent young men at a time when personal appearance and grooming is becoming ever more important. The Male Self-Care Series shows a young man how he can best obtain good grooming habits with the least amount of time and money. The titles of filmstrips include, "You," "Care of the Skin," "Care of the Teeth," "Nail Care," and "Care of the Hair." The Self-Care Series was developed for secondary-level students; no reading is required in this multi-media approach. Full color filmstrips, 5 audio cassette slides, teacher's manual, $74.00.	Interpretive Education
		*Practical Drug Series. Acquaints the student with the theme of medicines and their use, what is a pharmacy and a pharmacist, and how they can help you. Important points covered in this multi-media approach are: prescription and over-the-counter medicines, their care, selection, and use, the importance of following directions, and the possible consequences and dangers of using drugs and medicines haphazardly. A high interest, low vocabulary program with practical orientation. 5 full color filmstrips, 5 audio cassette slides, 1 teacher's manual, $74.00.	Interpretive Education
		Facts About Sex - A Basic Guide. Brief guide to sex education, including definitions of "gutter language" terms. Written for retarded teen-agers. Reading level: 6.0. $3.95.	John Day Company
		Family Planning Series. Two units of six cassettes each dealing with family planning. Unit 526 titles include, "What Is Family Planning?" Occupational Choice

Comp.	Level	Description	Publisher
17	Sr Hi	The Ungame (1972) (see previous listing under elementary level).	The Arden Press
18	Jr Hi	What Could I Be - W.M. Lifton - An illustrated text introducing the world of work and guiding children to view it in terms of their own abilities and interests. Teacher's manual available. Cost for both $2.15 SRA.	Project ISU
		Singer/Graflex Vocational Evaluation System - This is a "hands-on" evaluation technique which attempts to measure both aptitude and interest. The system includes 17 work stations each of which affords the student the opportunity to actually perform tasks common to actual jobs. A work station includes all necessary tools and equipment, including audio cassette tapes, filmstrips and evaluator's manual. The system is useful both for estimating a student's potential and also for allowing him to explore new vocational areas. Work stations included are plumbing and pipe fitting, cooking and baking, masonry, drafting, etc. The system requires minimal reading. The average cost of a work station is about $1000.00.	Singer Education Division
		Career Decisions: Finding, Getting and Keeping a Job 1974 - A series of activities to facilitate career awareness, exploration and decision-making. Especially relevant is the section, Getting You and the Job Together. Includes worksheets, filmstrip, a record and teacher's guide. May be obtained through local J.C. Penney store.	J.C. Penney Co., Inc.
18	Sr Hi	World of Work Kit by Anderson, et.al. Fifty-4-page, fiction stories written to illustrate a variety of job situations and realistic job demands. Stories are written at a fifth-grade reading level. Cost entire kit - $99.00, individual stories, 20 copies, $1.98.	McGraw Hill Webster Division
		Occupations and Careers by S.N. Feingold and S. Swerdloff. A text designed for an occupations course, emphasizing both self-awareness and factual knowledge about the world of work. Cost, $6.72.	McGraw Hill Webster Division
		Career Values: What Really Matters to You - A five-part audio-filmstrip unit which introduces the idea that personal values are a crucial determinant of job satisfaction. Parts I through V are: Introduction, Chance-Taking, Work Environment, Personal Commitment, and Time. Cost, $97.50.	Guidance Associates

Occupational Choice

Comp.	Level	Description	Publisher
18	Sr Hi	It's Your Life: Individual and Career Guidance James J. Pancrazio. Although portions of this text focus on such issues as college choice and drug use, career decisions are dealt with extensively. The reading level is 5.5. Teacher's guide is available. PUBLICATIONS

Career Education - General

Bailey, L.J. and Stadt, R. Career Education: New Approaches to Human Development. Southern Illinois University at Carbondale, McKnight Publishing Company, Bloomington, Illinois, 1973.

The authors are cognizant of the changing form and function of schooling. The book begins with a succinct analysis and synthesis of educational criticism and recent responses to outside forces. It concludes with a similar analysis of change theory as applicable to education and recommendations for the several kinds of people who can contribute to a self-starting organization. The core of the book entails career development, the foundations and evolution of career education, and models for career education and curriculum development.

Begle, Elsie P. et al. Career Education: An Annotated Bibliography for Teachers and Curriculum Developers. American Institutes for Research, Palo Alto, California, 1973.

The purpose of this review is to assist teachers and curriculum developers in the more practical definition and implementation of career education in their respective school systems. Included are references from the professional literature, commonly available children's and youth's literature, and supplementary references.

Campbell, R. E. et al. Career Guidance, A Handbook of Methods. Charles E. Merrill Publishing Company, Columbus, Ohio, 1973.

The book is a single source to organize, codify and synthesize innovative guidance methods. The book deals with educational level considerations relating to career guidance, population subgroups for whom special guidance procedures are desireable (a small section is included pertaining to handicapped youth), types of career guidance methods, guidelines for career guidance program development, and a compendium of abstracted methods.

Dunn, J. A., et. al. Career Education: A Curriculum Design and Instructional Objectives Catalog. American Institutes for Research, Palo Alto, California, 1973.

The catalog begins with an overview of historical trends in curriculum, the place of career education in the schools, and the characteristics and organization of the career education curriculum as it has been developed to date. It then offers nearly 2,000 instructional objectives from which teachers and school systems might choose as they plan their own local programs. These objectives deal with Self Understanding and Appreciation, Opportunities and Options, Orientation and Goal Formulation, and Goal Exploration.

Facilitating Career Development: An Annotated Bibliography, Springfield, Illinois, Board of Vocational Education and Rehabilitation, Division of Vocational and Technical Education, Southern Illinois University, Carbondale, 1974.

The pu pose of this publication has been to compile an implementation-oriented resource to be used by all manner of educational personnel.

Goldhammer, K. and Taylor, R. E. Career Education: Perspective and Promise. Charles E. Merrill Publishing Company, Columbus, Ohio, 1972.
The book offers career education perspectives, unfulfilled expectations in American education, concepts, issues, problems and trends, emerging career education programs in the public schools, and the promise of career education.

Hoyt, D. B. et. al. Career Education: What It Is and How to Do It. Olympus Publishing Company, Salt Lake City, Utah, 1972.
This monograph provides answers to four questions: What are the key concepts of career education? Why is career education needed? How is career education being implemented in practice? What are the appropriate strategies of implementation for a school system interested in the concept?

McClure, Larry, and Buan, Carolyn. Essays on Career Education. Northwest Regional Educational Laboratory, Portland, Oregon, 1973. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402. Stock No. 1780-01147.
The essays are divided into four categories: Laying a Foundation, Building a Framework, Satisfying the Consumers' Needs, and Redesigning the System.

Career Education and the Technology of Career Development. American Institutes for Research, Palo Alto, California, 1971.
The proceedings of the Eighth Invitational Conference on Systems under Construction in Career Education and Development.

Career Education: EMR

Beedy, Vernon, et. al. A Prevocational and Social Adjustment Program for Educable Retarded Adolescents: A Pilot Project. Curative Workshop of Milwaukee, Wisconsin, Bureau of Elementary and Secondary Education, Washington, D. C., 1971.
The primary objective of the pilot project described was to offer a program of vocationally-oriented enrichment activities to EMR adolescents experiencing retardation in the following developmental areas: educational, mental, social, and vocational.

Birch, J. W. Mainstreaming: Educable Mentally Retarded Children in Regular Classes. Leadership Training Institute, Special Education, 1974. Copies may be ordered from the Council for Exceptional Children, 1920 Association Drive, Reston, Virginia 22091. Single copy, $2.50. Discounts on quantity orders shipped to one address: 2-9 copies (10%); 10 or more copies (20%).
This monograph describes and analyzes the mainstreaming programs for educable mentally retarded children which are in effect in six school

districts of various sizes and pupil composition in five different states. For each district, the author has detailed the unique qualities of the program and shown how as well as why it works. More importantly, perhaps, he has synthesized the principles that have made mainstreaming successful in those districts.

Calemine, Mary. A Tentative Guide for a Special Education Program, Junior High School Level. Allegany County Board of Education, Cumberland, Maryland, 1966.

Curriculum material is outlined in three broad areas of instruction: Social skills, arithmetic skills, and language skills.

Campbell, L. W. et. al. Work-Study Handbook for Educable Mentally Retarded Minors Enrolled in High School Programs in California Public Schools. State Department of Education, Sacramento, California, 1971.

This handbook emphasizes the combining of academic knowledge with skill training, the nature and scope of the work-study curriculum, and the student's real need to develop emotional stability and self-confidence.

Copple, C. R. et. al. Habilitation of Rural Educable Mentally Retarded Adolescents: A Handbook for Educators. Eastern Montana College, Billings, 1969.

This is a study of 20 rural high schools, and related public sentiment. There are suggested practices in the areas of intellectual, social, emotional, moral, physical, and occupational development.

Horn, F. Annotated Bibliography of Instructional Materials for Use by Home Economics Teachers with Educable Mentally Retarded Students. University of Wisconsin-Stevens Point, 1974.

Meyen, E. L. et. al. Inservice Training Materials for Teachers of the Educable Mentally Retarded. Iowa University, Iowa City, Special Education Curriculum Development Center; Iowa State Department of Public Instruction, Des Moines, 1968.

Life experience units are presented as an approach to teaching EMR children. Areas of learning experience are: Communication skills, vocational skills, arithmetic concepts, social competencies, health and safety.

Ransom, Nina, et. al. A Curriculum Guide for Teachers of Educable Mentally Handicapped. Brevard County School Board, Cocoa, Florida, 1972.

Presented are pre-primary, primary, intermediate, junior high school, and occupational training programs. Some skill objectives are communication and social competencies, and vocational training.

Smith, Janet. Secondary School Educable Mentally Handicapped, Program Guidelines, Lincoln Public Schools, Nebraska, 1965.

In secondary school, the program is intended to develop responsible citizens through social, civic, and occupational training.

Career Development: Special Education, Eau Claire Joint School District No. 5, Eau Claire, Wisconsin, 1973.

This guide is designed to provide teaching units and activities which will allow for integration of career education concepts into the curriculum presently used for teaching mentally retarded children, K-12.

Career Education Programs for Educable Mentally Retarded. Info-Pak 2, Selected Readings. Michigan State University, East Lansing. Regional Instructional Materials Center for Handicapped Children and Youth, 1973.

The Information Packet contains six abridged readings on career education programs for EMR adolescents and young adults.

Course of Study for Educable Mentally Retarded, Shelby County Schools. Memphis, Tennessee, 1965.

The guide suggests objectives, content and teaching methods for the communicating, enumerating, living, and enriching skills. Each area is discussed separately for the primary, intermediate, and secondary levels.

Curriculum Guide for the Educable Mentally Retarded. Paintsville City Schools, Kentucky, 41240, 1968.

Guides are included for the following topics: citizenship, communicating, home and family, leisure time, management of materials and money, occupational adequacy, physical and mental health, safety, social adjustment, and travel.

Curriculum Suggestions for Educable Mentally Handicapped Program in Junior High School. Tulsa Public Schools, Oklahoma, 1968.

The major headings in the curriculum guide include communications, mathematics and economics, social studies, health, science and family living, locational skills, leisure activities, and a bibliography.

Educable Mentally Retarded: Level III. Fort Worth Public Schools, Texas, 1969.

The guide incorporates a variety of physical, personal, social and vocational experiences to be achieved by educable intermediate pupils.

Exceptional Children Conference Papers: Career Education. Council for Exceptional Children, 1920 Association Drive, Reston, Virginia 22091.

These are two conference reports focusing on career education programs for handicapped high school students. Described is a work-study program for EMR senior high students with such goals as improving basic work skills, teaching positive work attitudes, improving self concepts, etc.

A Guide for Teachers of the Educable Mentally Handicapped. New Mexico State Department of Education, Sante Fe, Division of Special Education, 1974.

Presented is a curriculum guide for a prevocational, vocational, and work-study program to be used with educable mentally retarded students. Skill areas stressed are: academic, leisure time, social, and vocational.

Management System for EMR Work Study Program. Columbia County School Board, Lake City, Florida, Exceptional Child Education Department, 1973.
This is a computerized information management system involving the specification of objectives, the coding of teacher evaluations of students, and a variety of possible outputs in a work study program. Some instructional areas are social skills, leisure time activities, citizenship and personal health.

On-The-Job Training Program, Educable Mentally Retarded. School District Number 25, Pocatello, Idaho, 1968.
School training and vocational services were combined into a program designed to demonstrate that educable mentally retarded students could develop well rounded working habits that would mutually benefit them and the community. On-the-job training was used as a demonstration of the practical use of academic, social, and vocational skills learned in the classroom. Work was individualized to develop skills and attitudes necessary for a successful employment, good citizenship, and worthwhile use of leisure time.

Performance Objectives for Educable Mentally Handicapped (K-12). Cooperative Educational Services, Phoenix, Arizona, 19[illegible].
Performance objectives related to occupational, social, communication, and daily living skills are specified.

Post High School Adjustment of the Educable Mentally Retarded. State Board of Public Instruction, Des Moines, Iowa, 50319.
The goal of this research publication is to establish a perspective into what research tells us are some important factors in the retardate's occupational and social adjustments. Of interest are factors in his home, schooling, and employment that might add to or detract from his eventual success. Effects that his intelligence, physical characteristics, and personality seem to have are reviewed. Extensive bibliography included.

Career Education: Handicapped

Reynolds, M. C. and Davis, M. D. Exceptional Children in Regular Classrooms. Leadership Training Institute/Special Education, 1971. Distributed by the Department of Audio-Visual Extension (University of Minnesota), 2037 University Avenue S.E., Minneapolis, Minnesota 55455. Price, $1.95.
This book presents a series of thoughtful and stimulating approaches to improving the competencies of teachers who work with handicapped children in regular classrooms. It illustrates a commitment to improve and expand educational opportunities of young people handicapped in a variety of ways.

Robins, D. A. Special Education Guide to the Open Court Program. Open Court Publishing Company, La Salle, Illinois, 1970.
The Guide is an excellent example of the type of materials that should be available for "Special" teachers who have the responsibility of teaching "Special" students. It reflects the attention to day to day

details and methods that classroom teachers especially appreciate. The guide specifically terms a logical approach to the development of language skills.

Thiagarajan, S. et.al. Instructional Development for Training Teachers of Exceptional Children: A Sourcebook. Center for Innovation in Teaching the Handicapped, Bloomington, Indiana, 1974. Copies may be ordered from The Council for Exceptional Children, 1920 Association Drive, Reston, Virginia 22091. Single copy $5.50. Discounts on quantity orders shipped to one address: 2-9 copies (10%); 10 or more copies (20%).

The sourcebook takes the reader from the determination of the need for new instructional materials, through the processes of creating and evaluating modules of instruction, to the mass production and distribution of the finished module.

Curriculum Guide in Occupational Preparation for the Disadvantaged and Handicapped. Florida State Department of Education, Tallahassee, Division of Elementary and Secondary Education, 1971.

Emphasis is on developing in students the values and attitudes that are basic to the success of any worker, and social requirements of young adulthood and supervised community work experiences.

Selected Career Education Programs for the Handicapped. U. S. Department of Health, Education, and Welfare. Washington, D. C. 1972. For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402. Price $1.25 domestic postpaid or $1.00 GPO Bookstore.

The State projects presented were selected as representative within their own States of good practices in vocational education for handicapped persons. Included in the criteria for selection was the potential for project replication throughout the United States. The programs reported cover a broad range of vocational education activities as well as persons with widely differing handicapping conditions.

Relevant Journals

American Journal of Mental Deficiency. Published bimonthly by the American Association on Mental Deficiency, Publication Sales Office, 49 Sheridan Avenue, Albany, New York, 12210. Institutions and libraries: $36.00 per volume; $8.00 per copy. Non-institutions: $18.00 per volume; $4.00 per copy.

The journal emphasizes an objective, scientific, experimental and theoretical approach.

The American Vocational Journal. Published monthly, September through May, by the American Vocational Association, Inc., 1510 H Street, N.W., Washington, D. C. 20005. Non-member subscriptions at $8.00 per year domestic. Single copies $1.00 each.

Education and Training of the Mentally Retarded.

Published quarterly by The Council for Exceptional Children, 1920 Association Drive, Reston, Virginia, 22091. The journal is sent to all members of the Division on Mental Retardation of the Council for Exceptional Children. All Division members must first be members of The Council for Exceptional Children. CEC-MR Division membership dues are $5.00 for regular members and $2.00 for full time students.

Journal of Career Education: Focus on Vocational Education. Department of Practical Arts and Vocational-Technical Education University of Missouri-Columbia.

This publication endeavors to support and summarize the thrust of current trends in career education, with a special focus on the integrated approach to vocational and technical education.

Mental Retardation. American Association on Mental Deficiency Publication Sales Office, 49 Sheridan Avenue, Albany, New York, 12210.

Subscriptions to MR and American Journal of Mental Deficiency (AJMD) are included in membership dues of AAMD. MR is available to non-members for $15.00 per year. Single issues, $3.00 per copy.

The Personnel and Guidance Journal. Published monthly except July and August by the American Personnel and Guidance Association, 1607 New Hampshire Avenue N.W., Washington, D. C., 20009, Telephone: 202-483-4633. Subscriptions: available to non-members at $20.00 per year.

The journal is directed to the mutual interests of counselors and personnel workers at all educational levels from kindergarten to higher education, in community agencies, and in government, business, and industry.

Teaching Exceptional Children. The Council for Exceptional Children, 1920 Association Drive, Reston, Virginia, 22091.

This is a journal of the CEC Information Center and the Special Education IMC/RMC Network. It is published four times a year, and is available on an annual subscription basis. Individual subscription rates per year are U. S. and Canada, $7.50, PUAS countries, $8.00, other countries, $8.50. Single copy price is $2.00

E P I L O G U E

Future activities of Project PRICE are being directed toward: (1) a study regarding which types of school personnel can best meet the Career Education needs of EMR students at the various academic grade levels, the kinds of competencies and experiences they need, and the types of materials and information needed for them to effectively understand and work with such students; (2) further development and refinement of the curriculum areas and competencies presented in this paper into a practical and researchable model; (3) division of the competencies into sub-competencies, behavioral objectives, suggested activities and materials (K-12); (4) student competency attainment evaluation procedures; and (5) development of an inservice training model from which special and regular class personnel can receive effective training to better accommodate EMR students in Career Education programs.

Working papers contemplated for the first project year will focus on these subjects:

1. Programming Retarded In Career Education. (Working Paper #1)
2. Career Development Models and Concepts: Their Application to Educable Mentally Retarded.
3. Daily Living Skills Development for Educable Mentally Retarded Students.
4. Personal-Social Development for Educable Mentally Retarded Students.
5. Occupational Guidance and Preparation for Educable Mentally Retarded Students.
6. Preparing School Personnel for Accommodating Retarded In Career Education Programs: Results of a Study.
7. Career Education Materials for Educable Mentally Retarded Students. (Working Paper #2).
8. School-Based Resources for Educable Mentally Retarded Students.
9. Community-Based Resources for Educable Mentally Retarded Students.
10. An Inservice Training Model for School Personnel in Better Serving the Career Education Needs of Educable Mentally Retarded Students.
11. Evaluating Educable Mentally Retarded Student's Competencies.

Some of the above subjects may be combined into one working paper.

During the first project year, the PRICE staff will be working closely with the cooperating schools and training a cadre of inservice trainers, particularly administrators and special education personnel to achieve the project's objectives. In the second project year, the inservice training program will be conducted and evaluated on teacher and counselors and the necessary modifications made. In the final project year, most activities will be directed toward disseminating the model and materials nationally so that they can be used by other school systems.
